

GLOBAL CLIMATE STRIKE!

**9.27 MARCH 2.15PM @ WELLS FARGO
74 RIVER STREET**

Wells Fargo // Fossil Fuel Funder

Wells Fargo rakes in huge profits from their investments in fossil fuel extraction, corporate agriculture, and oil pipeline expansion projects. Their investments create climate chaos, destroying habitats and forcing millions of people to leave their homes.

Enough! End climate chaos investment!

Amazon // Exploitative Analytics

Amazon is lobbying for a \$10 billion contract to build the Pentagon a "war cloud," which will allow the US military to use artificial intelligence to speed up its war planning and fighting capabilities. The US military is a bigger polluter than over 100 countries combined. Its wars and invasions have killed and displaced millions.

End war profiteering! Cut emissions!

Google // Climate Chaos Enabler

Through their venture capital arm Gradient Ventures, Google provides financial, technological, and engineering support to a range of startups that build tech for the largest greenhouse gas emitter: the United States Military. It is estimated that the US military purchases about a quarter million barrels of oil per day to power its war machines.

No more! Tech won't build it!
